

## Scientific and Technical Committee

Dr Chris Atkins, Mott McDonald, UK  
Dr Atef Badr, MTC, Sultanate of Oman  
Prof. Yun Bai - University College London, UK  
Prof. M. Basheer, University of Leeds, UK  
Dr. Piotr Berkowski, Wroclaw University, Poland  
Dr. Hans Beushausen, University of Cape Town, S Africa  
Dr Véronique Bouteiller, IFSTTAR, France  
Dr John Broomfield - Corrosion Consultant - UK  
Mr David Corbett—Proceq SA, Switzerland.  
Mr. Richard Day, The Concrete Society, UK  
Prof. Frank Dehn - MFPA Leipzig  
Dr. Ted Donchev - Kingston University, UK  
Mr John Drewett - Concrete Repairs Ltd., UK  
Ass. Prof. Raafat El-Hacha- University of Calgary, Canada  
Prof. Dr. Vyatcheslav R. Falikman, Structural Concrete Association, NIIZHB, Russia  
Prof. Nader Ghafoori, University of Nevada, USA  
Dr. Chris Goodier - Loughborough University, UK  
Prof. Michael Grantham - Concrete Solutions & Sandberg LLP  
Mr. Albert van Grieken, van Grieken & Associates, Australia  
Ass. Prof. Oguz Gunes, Istanbul Technical University, Turkey  
Prof. Peter Hewlett, University of Dundee and the David Ball Group  
Prof. Dr Iqbal Khan, King Saud University, S. Arabia  
Prof. Minoru Kunieda, Nagoya University, Japan  
Dr. Bryan Magee - University of Ulster, Jordanstown, N. Ireland, UK  
Dr. Elisabeth Marie-Victoire Laboratoire de Recherche des Monuments Historique, France  
Prof. Dr. Viktor Mechtcherine - TU Dresden  
Prof. Dr Carlos Jurado Cabañes, Polytechnic University of Madrid and Ingecal Ingenieros S.L. Spain  
Prof. Christophe Lanos - IUT Rennes, France  
Dr. David Law - RMIT University, Australia  
Prof. Dr. Calin GR Mircea - Technical University of Cluj-Napoca Romania  
Prof. Rob Polder, RPCP Consultants, Netherlands  
Prof. Peter Robery - Robery Forensics and Leeds University  
Dr Ioannis Sfikas, Jacobs UK Ltd.  
Prof. Kosmas Sideris - Democritus University of Thrace, Greece  
Dr. Ulrich Schneck -Citec GmbH - Dresden  
Dr. Wolfgang Schwarz—Composite Anode Systems GmbH, Austria

Leeds Industrial Museum—Armlay Mills

## CONCRETE SOLUTIONS

### CO CHAIRS

Prof. Michael Grantham  
Concrete Solutions  
133 Westbrook Avenue  
Margate  
Kent  
CT9 5HG  
United Kingdom

## Concrete Solutions 2022

8th International Conference on Concrete Repair, Technology, Repair and Durability

Leeds and Online Hybrid Event,  
UK/International

11-13 July 2022

Institute of Concrete Technology

## Background

Concrete Solutions 2022 is the 8th in a series of International Conferences on Concrete Repair. Previous conferences have attracted a wide range of delegates from practitioners to Clients to Academics and Students.

The aim of the event is to inform on the latest methods in concrete repair. Papers are invited on the following themes.

- Patch Repair
- Electrochemical Repair
- Strengthening Materials & Techniques/Repair with Composites
- Surface Protection Methods and Materials
- Repair of Fire Damage
- NDT and Diagnosis of Problems
- Insitu Strength Assessment
- Risk Management
- Whole Life Costing
- Surface Protection Methods & Materials
- Repair of Heritage Structures
- Sustainability

## Key Dates

Submission of Abstracts 30 November 2021

Notification of Acceptance 31 December 2021

Final papers due by 31 Mar 2022

## Fees

Attendee	Fee GBP
Author	650
Delegate	700
Student*	250
Online per day	50
Single Day Registration	250

\*For Students, proof of status will be required

## About the City of Leeds

Situated in the middle of the United Kingdom, Leeds is the third largest and one of the fastest growing, greenest cities in the UK.

A thriving economy boasting strengths in financial services, legal, manufacturing, health and retail, Leeds has excellent road, rail and air links, providing a gateway for tourist and business visitors to the region. Trinity Leeds, the £350 million retail development reinforces Leeds as one of the finest shopping destinations in the UK.

Two of the UK's leading universities, the University of Leeds and Leeds Beckett University have world-class research facilities and two of the top business schools, with Leeds Trinity specialising in teaching. In fact in 1824, Leeds local Joseph Aspdin patented the method for industrially producing a new material 'Portland cement' which he first sold in Angel Inn Yard in the centre of Leeds.

## The Conference

The conference runs over 3 days, with a conference dinner included in the conference fee. The conference provides a good platform to exchange both scientific and practical information in a pleasant workshop-like atmosphere. Papers are peer-reviewed and the Proceedings will be published. Now co-sponsored by RILEM as well as

ACI, the UK Concrete Society and the Institute of Concrete Technology, a wide international interest is certain. The student rate is fully inclusive of meals. Full delegate and author rates include all lunches and the conference dinner. All delegates. Students and authors may access the conference papers via open access online.

## Online Attendance

New for this conference, for the first time we have an option to attend all the presentations and the social events online. Given rising concern about virus infection or simply the physical cost of travelling long distance to a physical event, this option means you can attend the presentations, ask questions and participate just as you can for a physical event. You can also network with other online participants by random chat in the virtual coffee area or arrange a specific online meeting, or you can visit the exhibitors at their virtual booths, to see demos, chat to exhibitors etc.

## Sponsorship

A range of exhibition and sponsorship packages is available, both Physical and Online. Contact us for details of sponsorship and advertising opportunities or see the website at [www.concrete-solutions.info](http://www.concrete-solutions.info).
